

About the implementation plan of new energy storage

Overview

In order to deeply implement the new energy security strategy of "Four Revolutions and One Cooperation", achieve the goals of carbon peak and carbon neutrality, support the construction of a new power system, and accelerate the high-quality and large-scale development of new energy storage, in accordance with the requirements of the "14th Five Year Plan for National Economic and Social Development of the People's Republic of China and the Long Range Objectives for 2035" and the "Guiding Opinions of the National Development and Reform Commission and the National Energy Administration on Accelerating the Development of New Energy Storage", we have organized the preparation of the "14th Five Year Plan for the Development of New Energy Storage", which is now printed and sent to you for implementation.
