

How to add battery to notification system

Overview

Battery Notification is a Microsoft Store app you can utilize in Windows 11/10. That app enables you to set both high and low-battery alert notifications. The basic app is freely available, but you can upgrade it to one with battery analytics for \$4.99. You can set up a fully charged notifier with Battery Notification as follows: 1. Battery Notifier is a small app you can utilize from the Windows 11/10 system tray. This app provides low and high-battery charge notifiers and enables you to view the current battery status by clicking its system tray icon. This. Alert Full Battery & Theft Alarm is an app with which you add a full battery charge notifier to Windows laptops and Android mobile devices, as it's available on Google Play. It also provides an additional theft alarm for security. The. Note that Windows notifications need to be turned on for the above apps' full battery charge notifiers to work right. Make sure notifications for the battery. Battery Notification, Full Battery & Theft Alarm, and Battery Notifier include some good options and features for monitoring battery levels in Windows. You'll never forget to unplug a fully.
