

Is using batteries environmentally friendly

Overview

In a step forward since our last battery guide, three brands of rechargeable batteries now get an extra half a Product Sustainability mark for using recycled content: 1. Energizer: 15% recycled content in AA and AAA rechargeable batteries and 7% in C, D, and 9-volt. 2. Varta: 21% recycled content in Recharge Accu Recycled. Only Panasonic and Philips got our best rating for carbon reporting. They had concrete targets and discussed steps made towards reducing emissions, such as the installation of renewable energy systems. Carbon reporting. All the companies, apart from Varta, got our worst rating for Tax Conduct. VARTA stands out for getting a best. Amazon and Berkshire Hathaway. All of the companies we rated scored our worst rating for their supply chain management policies. Berkshire Hathaway (Duracell) had practically. All except Panasonic and Philips got a worst rating for their conflict minerals policies. Only Philips scored a best.
